Mr J. E. Curry,

Chief of Police.

Dear Sir: Many thanks for giving me the information I asked you about the assassination of the late President Kennedy. At that time I was about a hundred odd miles away in a place called Kissimmee, and talking to the judge of the county court when I saw the caretaker hoist the flag at half mast, and asked who the flag was half mast for. I thought it could be for some local dignitary, but he said it was for President Kennedy. If ever I am near Dallas I will make an effort to thank you personally.

Very truly yours

Hugh Butler.

To the Dallas Police Dept.  
Dallas, Texas

Gentlemen:

Congratulations, I'm glad  
you got hold of Oswald's  
diary before the Warren  
Commission did. I do hope  
you are investigating the  
murder of Pres. Kennedy  
on your own - the farce  
Warren put on is so disgust-  
ing one fails to find words  
to describe it. We all knew  
the verdict when Warren  
was chosen - for he was  
picked to cover up the  
truth - if the truth came

out no doubt the Americans would turn on the rats behind it all and ~~do~~ as Hitler did.

We all know that Ruby is not insane - its the only way to save him and these rats are determined to save him at any cost.

Oswald was only the goat for these rats

The shame that has been heaped on Dallas should be vindicated - these rats care little who they hurt - they care nothing for the tears and heartaches of the Dees family - they are going to rule the world regardless.

Will America ever awaken?

Too many unanswered questions in Pres. Kennedy's murder not to be a Red plot - the folks who befriended them - that's hokey. - the fact he hid in book-store - who found the spot and the information as to route change - so many unanswered why's - the Press stated at one time that Ruby had a plane ready for Oswald to leave for Mexico. Both were friends of whiskey in Cuba. The fact that Pres Kennedy decided to have a show down with Castro no doubt spurred the killing

If Barry Goldwater wins the election in Nov. no doubt they have another dupe ready to kill him.

I'm so glad the rats can't intimidate the Dallas police Dept. Glad Texas has some backbone.

My nephew lives at Ft Worth and his daughter is taking nurses training in the Dallas hospital where they took Pres Kennedy.

It's high time we impeach the members of the so called Supreme Court - they are what the Red conspiracy want.

Thank you again for getting the diary. Mrs. Chas. BERQUIST
